Summary

I am dedicated to ensuring project success, regardless of complexity, and prioritize timely delivery to contribute to the company's overall achievements.

Results-driven data professional with expertise in data analysis, Power BI, SQL, and Python. Experienced in creating user-friendly Power BI dashboards, conducting statistical analysis, and delivering actionable insights. Proficient in Python programming, SQL querying, and database management. Demonstrates strong analytical skills and attention to detail, committed to leveraging data to drive business success and informed decision-making.

Work Experience

Intern- Data Engineering— Piramal Capital & Housing Finance Limited   Feb 2024 - Present

– Collaborated with clients on the "Neev" project to design user-friendly Power BI dashboards based on their requirements, reducing reporting time by 30%.

– Utilized statistical analysis and data visualization techniques to enhance decision-making, improving decision-making efficiency by 40%.

– Conducted in-depth analysis to support data initiatives, leading to a 25% increase in actionable insights provided.

– Committed to continuous learning and innovation in Power BI and data analytics, staying updated with the latest advancements to maintain a high level of proficiency.

Intern - Full Stack Engineer — Pawfriend.in   Feb 2023 - Apr 2024

– Managed website development and optimization using GCP, Next.js, and Nest.js, resulting in a 40% increase in site performance.

– Improved API response times by 25% through optimization and efficient coding practices.

Content Creator — Saurabha.com   Jun 2023 - Oct 2023

– Created and shared engaging content for a Power BI community, increasing user engagement by 50%.

– Stayed updated with the latest Power BI trends and innovations to ensure the platform remained a valuable learning hub.

Project

PHINLIN

– A dynamic platform for networking and information exchange in IT.

– Focused on fostering collaboration and innovation within the IT community.

– Provided a user-centric approach, empowering individuals to contribute insights and connect with professionals.

Skills

Programming —	Python, SQL, JavaScript
Database —	MongoDB, MySQL, PostgreSQL
Cloud Database: —	Snowflake Cloud Data Platform, Google Cloud Platform (GCP)
Software & tools —	Power BI, Microsoft Office, Postman
Technical Skills —	Data Analysis, Data Modeling, Statistical Data Analysis, Data Visualization, Database Management, UI/UX
Soft Skill —	Listening, Problem solving, Team work, Time Management, Strategic-thinking

EDUCATION

2021 - 2024   Bachelor of Science in Information Technology at **Mumbai University**   GPA: 8.18/10.0

CERTIFICATE

SQL (Basic)
SQL (Intermediate)
Python Dev
MS-CIT
